## Tokyo Says U. S. Carrier Task Force Withdrawn

### New Attacks Are Expected by Japs At Any Moment

From bomb torn Japan, Tokyo radio reported today it believed the U. S. carrier task force had withdrawn in fear of suicide attacks, but in the same breath admitted it expected the Americans back at any moment.

Tokyo said there were no raids by carrier planes today, but admitted that the steady pounding of the homeland was being kept up without respite by land-based planes from Okinawa.

The new raids by 150 Thunderbolt and Mustang fighters hit airfields on the east coast and south of the home island of Kyushu. They stayed over their targets for two hours.

In declaring that the American Third Fleet had withdrawn "some distance to the south," Tokyo made no claim that the episode was first. It expressed the belief that the American task force is still in the sea in the vicinity of our homeland, and said Japanese forces are "on alert against a possible follow-up raid."

While American sources refer repeatedly to the raids as a 1,000-plane affair, Tokyo went one better by boosting its previous estimate of 800 planes to a new total of 1,200.

Standing out with a glaring clarity as a result of the smashing attack was the lack of Japanese air strength. The enemy was absent or reluctant to fight. Fleet Admiral Chester W. Nimitz claimed only that 154 Japanese planes were destroyed or damaged thus far—and only two were in the air.

A broadcast heard by the Federal Communications Commission said "There were almost no damages inflicted upon our airfields, airfield facilities, warships and ships."

Both Admiral Nimitz and the Tokyo radio spoke in agreement on one subject: however future American invasion moves.

Tokyo speculated openly that the American carrier strike pre-empted an invasion, recalling that the last carrier force blow at Tokyo was followed promptly by landings on Iwo Jima.

On the American side, Nimitz revealed a regrouping of growing air power in the Ryukyus. Gen. Douglas MacArthur will command all Army planes there. Nimitz will keep his own Marine and Navy aircraft at the job of blockading Japan in preparation for further amphibious assaults.

## CALLOWAY GOES OVER THE TOP IN WAR BOND DRIVE!

Good news was announced Wednesday morning when T. H. Stokes, chairman of the Seventh War Loan Drive, called this office and said that this county had gone over the top in the Seventh War Loan Drive with a total of \$633,281.00 in the final figures.

"Does this figure meet our E Bond quota of \$215,000.00?" was the question asked of the chairman. "That includes everything, E Bonds and all," Mr. Stokes replied.

Last week this paper announced that we had oversubscribed the quota of \$375,000.00, but had not reached the E Bond assignment.

This week's news backs up the reputation that Calloway has of meeting all quotas given during this war.

Mr. Stokes further stated that a letter from the state bond chairman gave the figures for the Seventh War Bond Drive headed by the 48 states in the nation in the sale of bonds.

Calloway added her part to making Kentucky first, according to the figures. The state chairman was very complimentary to Mr. Stokes and his workers.

In this drive, Mr. Stokes, and W. Z. Carter, general chairman, have more than once expressed their appreciation to the county, all workers, and this newspaper for the work, interest, and cooperation with them in making the drive a success.

## Real Estate Exchanges

T. O. Turner has purchased the Risenhoover residence on North Fourth street from Holland and Hart, according to unofficial reports here.

Eurle Kelso bought the Mrs. Emma Hawks property on West Olive street this week.

Attorney John Ryan bought the corner business house occupied by Lerman Brothers this week from T. O. Turner.

Nat Ryan sold a three acre tract of land east of the railroad to the old Concord Road to Freeman and Lobbie Thurmond this week.

## Large Crowds Hear New Pastor

The Reverend Jarman comes to Murray from the state bond chairman gave the figures for the Seventh War Bond Drive headed by the 48 states in the nation in the sale of bonds.

## 72 Students From Kentucky And Tennessee Study Health Problems

### S-Sgt. Irl M. Smith Killed In Action

S-Sgt. Irl M. Smith was killed in action April 4, according to a War Department message received by his wife, Mrs. Ollis Smith, of Mayfield.

Sergeant Smith was with the Ninth Army and at the time of his death was assigned to 378 Infantry Regiment, 95th Division, which was invaluable in the mission of taking the city of Hamm, Germany. He was moving forward with his organization in the attack when he came under enemy fire.

He was employed at De Soto Chrysler Corporation in Detroit, Mich., prior to entering service in September, 1943, and had been in the European Theater since August, 1944.

He was a son of Mrs. Flora Smith of Highland Park, Mich., and the late Kelley Smith, both natives of Calloway County.

According to County Health Officer Dr. J. A. Outland and A. J. Colson, sanitation officer for this county, they are willing to cooperate in a program for ridding this county and town of mosquitoes if the citizens will cooperate in the program.

With Homer Lassiter, Marshall County supervisor, as workshop coordinator, the project was conducted cooperatively through the United States Public Health Service, the Tennessee Valley Authority, the Kentucky State Department of Health, the State Department of Education, the Agriculture Extension Department of the University of Kentucky, and Murray State College.

The workshop course enticed the students to eight hours of college credit. It began June 5 and those taking the course are expected to take the lessons learned to their respective communities where they will put their theories into actual practice.

Chairman of the five groups were Mrs. Milton Outland, Calloway County teacher; Mrs. Melvin Albritton, principal of Lee School in Mayfield; Miss Mary F. Betts, elementary supervisor of Stewart County; Mrs. L. C. O'Kens, Paris, Tenn.; Miss Charlotte McGee, principal of R. E. Lee School of Paris, Tenn.

Assisting Mr. Lassiter as coordinator were Miss Roba Harris, Kentucky Department of Health; and Miss Genevieve Pickup, TVA health supervisor. Studying health problems of the area, the group uses a variety of methods of "workshop" procedure—lectures, field trips, lectures, round-table discussions, experiments, research, charts, pictures, maps, movies, etc.

Student teachers attending the "Health Workshop" include the following:

Henry County, Tenn.—Matalou Mann, Cottage Grove, Tenn.; Ida Lorene Vinson, Hazel, Ky.; Charlie Irene McGee, Paris, Tenn.; Otto Thomas, Cottage Grove, Tenn.; Kathryn Salmon, Puryear, Tenn.; Len C. O'Kens, Paris, Tenn.; Ruth Butler, Paris, Tenn.; Laura Belle Morris, Buchanan, Tenn.; Mrs. R. F. Aden, Paris, Tenn.

Stewart County, Tenn.—Mrs. Emmie D. Riggins, Dover, Tenn.; Miss Lois Clark, Bumpus Mills, Tenn.; Mrs. Eleanor Deviese, Dover, Tenn.; Mrs. Elva Atkins, Indian Mound, Tenn.; Miss Mary Florence Betts, Tenn.; Miss Mary Florence Betts, Tenn.

Before entering service he was a farmer. He wears the Purple Heart, Combat Infantry Badge, and ETO ribbon. He will return to Atlanta for further treatment.

Others in the home party were Miss Mildred Wyatt and Riley Johnson, according to the officer.

In Warren county, 315 women reported using simplified ways of doing their housework after they studied the subject in their "somebody" Clubs.

Persons living in towns or on acreages who raise or fatten animals (as outlined below) in their back yards are considered as farmers or producers.

A man, living in town, who owns a farm where he actually supervises the raising of the livestock, or a man buying an animal for meat and keeping it alive for sixty days on premises owned by him, may obtain the meat point free, provided that he has had the premises one-third of the sixty days stated, or one-third of the time from birth to slaughter, or one-third of the time necessary to increase the animal's weight by 25 per cent.

Meat stored in lockers during point-free periods does not represent a violation of laws when the meat cuts are returned to ration lists, except as used by institutional users who are required to surrender points for any rationed foods used with a point value higher than zero.

Points required. Persons who buy young animals and arrange with a farmer to raise them, and who do not reside on the place where the animal is kept must surrender points, and all others.

Locker contents. The lease of a locker, comes under a court ruling that it is "extension of domicile" of the customer. The contents are his personal property, just the same as if they were in his refrigerator at home. No locker operator has the right to open lockers for any person but the customer himself.

OPA has legal authority to check records and to remove them for examination if they choose. OPA can obtain a search warrant through regular legal channels if they wish to examine the contents of your locker.

Save good things. Early in the rationing program, the Locker Industry got away from checking meat in and out of lockers and collecting points from customers. Any breach away from the letter of the law, or violations of the spirit of this regulation, if permitted to go on promiscuously, will jeopardize the good things now enjoyed. In this matter, locker operators intend to extend full cooperation to OPA in the rationing program. Such cooperation is essential to victory by the boys on the world's battle fronts. They need more food per man than they did when they ate at their home table. All of us want them to have it. Food savings on the home front are an important part of the war effort as well as a help to our overseas men. The locker industry can and does offer a great deal by the conservation of the supply in America.

SLAUGHTERING. A custom slaughterer is required to secure a Slaughter Certification (R-1610) from the slaughterer who is defined as the "owner of the animal." A locker plant NOT performing custom slaughtering is NOT required to have a certification for customer's meat.

The Truth About Your Locker Plant And Its Cooperation in Our Country's War Effort

PLEASE STORE LEGALLY ACQUIRED FOOD ONLY IN LOCKERS. Here is a summarization of OPA rules on the rights of individuals to buy, raise, slaughter (or have slaughtered) and store meat.

NO POINTS REQUIRED. Farmers living on their own farms have the right to slaughter and store meat in food lockers for themselves or for members of their families (those who are exempted out of the ration, or on a farm they operate) so long as they produced the meat primarily for home consumption.

Persons living in towns or on acreages who raise or fatten animals (as outlined below) in their back yards are considered as farmers or producers.

A man, living in town, who owns a farm where he actually supervises the raising of the livestock, or a man buying an animal for meat and keeping it alive for sixty days on premises owned by him, may obtain the meat point free, provided that he has had the premises one-third of the sixty days stated, or one-third of the time from birth to slaughter, or one-third of the time necessary to increase the animal's weight by 25 per cent.

## Jack Rucker, Social Security Authority, Heard by Lions Club

Jack Rucker, Social Security executive with offices in Paducah, Ky., was the principal speaker for the Murray Lions Club Tuesday evening at the Murray Woman's Club house.

Lion President Putnam conducted routine business. Lion Melugin, representative of Boys and Girls work, gave a report on a proposed project for this group. Secretary Ollie Barnett read a list of chairmen and their committees for the year 1945-46.

The Rev. Robert Jarman, pastor of First Christian Church, was a guest and presided by Lion R. L. Wade. Mr. Stewart, with the Social Security offices in Louisville, was also a guest.

Lion McKee, program chairman, introduced Jack Rucker as the speaker of the evening.

Mr. Rucker gave a detailed report on the purpose of the Social Security Act and outlined in detail its benefits to employees and their families.

"Old age plus little money equals fear; old age plus little money equals dependence," Mr. Rucker said.

At the conclusion of Mr. Rucker's address, a round table discussion of the Social Security Act was held with both Mr. Rucker, and Mr. Stewart answering questions pertaining to this national security program.

## Vacationing... IN THE CITY PARK

"There's Always a Friendly Crowd"

Activities in the City play program are being reported this week by the directors. Preston Holland and Mrs. Tom Rowlett. This is the second season that the city council through the City Park board has provided a supervised play program and the first summer that the city has operated a swimming pool. The joy that is expressed by the people who swim is well worth the effort these men and women have made to put the program to work, according to Mrs. Tom Rowlett.

Beginning next Tuesday, every Tuesday will be Pal Day for the children and students. Due to cool weather the attendance has not been as large this week as last week.

Watch this space for notice of the swimming classes which will begin soon.

Mr. Holland reported 825 people as registering at the park last week. Most of the people were enjoying picnics, children played there, and the younger sets used the tennis courts.

A tennis tournament is being planned at the park for boys and girls. Mr. Holland said.

The registration book at the park showed the following names last week: Mrs. H. B. Bailey, Miss Jennie Humphreys, Mrs. Carroll Laster, The Lydian Sunday School Class, Mr. and Mrs. Gingles Wills, Dr. W. G. Nash, Miss Nellie Wyman's college class, Mrs. S. V. Foy's Homemakers group, Mrs. L. D. Miller, Mrs. H. Douglas, Mrs. G. W. Ferguson.

### for County Attorney

#### TO THE CITIZENS OF CALLOWAY COUNTY:

Since making my formal announcement as a candidate for the office of County Attorney, subject to the action of the Democratic primary election on August 4, I have had the pleasure of seeing personally a large number of citizens regarding my candidacy. Your response to my personal solicitation for your support has been extremely warm and encouraging for which I am deeply grateful and thankful.

As I stated to you in my original announcement, your County Attorney is one of your most important officers. He is your chief law enforcement officer, and as such, it is his duty to prosecute violations of the law in the county and circuit courts. It is his duty to render legal advice and counsel to all other officers and agencies of your county government. He is a member of the County Budget Commission and thus it becomes his duty to protect the County Treasury.

In view of the duties and responsibilities of this office, you have a right to require and expect that the lawyer elected to the office of County Attorney possess certain very definite qualifications. Of course, he should possess a broad educational background in addition to legal training. He should be thoroughly dependable. He should possess a judicial and sympathetic attitude. And he should possess a knowledge of the needs and problems of all the people and institutions of our county.

I submit to you that my educational background, legal training and experience adequately qualifies me to perform the duties and assume the responsibilities of the office. In addition, I believe that I possess a knowledge and understanding of the needs and problems of the people and institutions of our county, as I am a product of the county and the county schools and institutions.

Between now and primary election date, I shall continue to see as many of you as possible and personally solicit your support. But to you that I fail to see, and to all, I earnestly request your vote and influence. And if elected, I pledge you competent, courteous, and constant attention to the duties of the office.

Sincerely yours,

Waylon Rayburn

### How Much Rainfall In Calloway For First 6 Months?

How much rain fell in Calloway county for the first 6 months of 1945 is a question that has been asked by many weather observers here. After listening to many disputes on total rainfall and number of days it rained during the same period, it was thought wise to get some facts and figures to help settle a few arguments.

In a check-up with the local U. S. Weather Observer station in the county, the following records were released:

First 6 months' rainfall	29.90 in.
Days rained by month	60
January	2.87 in.
February	4.34 in.
March	6.49 in.
April	3.68 in.
May	6.75 in.

### Comd. H. B. Taylor Visits Murray

Commander Taylor

After an absence of many years filled with varied experiences, a native son of Murray returned to visit the old haunts, to renew acquaintances and to take the progress and development of the home town.

To this office on Wednesday morning came Commander Boyce Taylor Jr., son of the late Rev. Boyce Taylor and Mrs. Taylor, who grew up and received his early education here.

After graduating from Georgetown College, Boyce as he is known here, was connected with the newspaper business in 1937, he joined a real estate and insurance company in Jacksonville, Fla.

Serving for a short period of time in World War I, he had remained in the Reserve through the years and in 1941 was called to active service. He was in Florida and California bases for a time but in 1943 went to Australia, and New Guinea as a Commander of the 11th Airborne Division.

He was sent to the Philippines and several weeks ago was returned to the States.

Commander Taylor spent several days with his wife and his daughter, Florence Olive who in June was graduated from the University of North Carolina. He came to Murray for a visit with his mother and sister Mrs. Barney Watson, before reporting to Norfolk, Va.

Commander Taylor, when asked what he thought of Murray, said "I have not words to express the feeling that I have. Murray has grown and improved more than I could realize. I agree with W. T. Sledge, Sr., he replied, 'If Murray continues to grow, in a few years Mayfield will be a suburb of Murray.'

Commander Taylor wears a Pre-Pearl Harbor and Navy Reserve Ribbon, a Pacific Area ribbon with three battle stars and a Philippine Zone ribbon with one star.

Calloway County Banks Gain Million In Six Months

The three banks in Calloway county have each a financial statement and report of condition as closed the first six months of the year, June 30, 1945. These banks have shown considerable increase in both assets and deposits, thus indicating that the financial status of this county is on the upward trend.

Total assets for the three financial concerns is \$7,583,059.47, a gain of \$1,063,726.61 in the last six months. The total deposits of the three banks is \$7,202,279.99. This is a gain of \$1,042,072.13 for the same period of time.

Letting the figures speak, we know that Calloway county has plenty of money, all this representing the earnings and holdings of Calloway citizens.

The banks, and their leaders are to be congratulated on this splendid record. Good bankers are the financial backbone of the community. It is said.

The statement of each of the banks is in this paper.

## WESTERN DARK FIRED TOBACCO ASSOCIATION HANDLES 15,248,137 POUNDS OF 1944 WEED, PRES. HILL SAYS

Boone Hill, Benton, Ky., president of the Western Dark Fired Tobacco Growers' Association, today reported at the annual meeting here that a total of 15,248,137 pounds of tobacco had been produced last season, of which 72.01 per cent had been handled by the association.

The total handlings of the 1944 crop, he said, had been 10,775,861 pounds for an average of \$22.89 cwt. Total handlings include barn door, loose floor, and advances.

Organized in 1931 with 6,630 growers of dark tobacco, the association now has a membership of 11,810 growers-members in 11 counties: eight in Kentucky—Ballard, Calloway, Carlisle, McCracken, Marshall, Graves, Hickman, and Fulton and three in Tennessee—Obion, Henry, and Weakley.

The association again entered into contracts with all loose floor operators on the Murray, Mayfield, and Paducah markets to offer members' tobacco for sale. Loose tobacco receipts (Type 23) on the Murray floors totaled 256,140 pounds for an "advance" average of \$25.67. Mayfield totaled 20,935 pounds for an average of \$25.48. The "advance" average of the 1944 crop for the association was 277,075 pounds at \$25.65.

"In addition to this advance, distributions have been made to members in the amount of \$515,230.55,"

## Open Letter To The People by Hall Hood

It is rather difficult for any of us to cause ourselves to become very much interested in county offices and officers at this time. In the midst of the greatest holocaust of war that ever afflicted the human race is recorded history, and at a time when so many of our hearts are burdened, almost to the breaking point, ordinary affairs of society are crowded out of our minds. This last week I had the happy good fortune of having my two boys — one in the uniform of the army and one in the uniform of the Navy — at home for a few days. I wish every father and mother, wife and sweetheart could have the good fortune of having their loved ones home with them, and I humbly pray that this war may speedily end and our loved ones may be released so they may return to us.

Difficult as it is to bring our minds back to county affairs, I believe we might profitably give some attention to the office of County Judge.

The office of County Judge is important to every man, woman and child. The man who occupies that office will have a great deal to do with directing all the fiscal activities of the county. He is the chief guardian for the orphan, and the legal protector of the helpless and dependent persons. If he is capable, sober and discreet your general government will be distinctly influenced, toward a high plane. Your county government system is very complicated and is becoming more and more complicated. Many difficult legal problems must be examined by the county judge and judgment rendered thereon, and those problems directly affect you, and how they are answered affect you.

In this short letter I can't discuss very many separate questions, but there is one that I do want to think with you about, and that is, our roads. Of course every one is for good roads. There is no virtue in merely saying that we are for good roads, but it is one thing to talk about good roads and another thing to do something about it. I am sure that the county road funds have been handled honestly and capably by our magistrates. The trouble is, there just isn't enough money in the county road fund for the Fiscal Court to do what they want to do and need to do.

If elected County Judge, I do not expect to be able to perform any miracles, but I believe that my experience and knowledge of the interlocking units of the State Highway Department, State Park Board, and County Fiscal Court, will enable me to bring into the county for the benefit of our county roads, considerable money and equipment that has heretofore not been available to the county. This is one of the ways I think I can serve you well. I do not believe that any man is honest who will or does in advance, make extravagant promises that he will build or cause to be built any particular road. I would expect you to resent such promises as being a reflection on your intelligence, because you know that no man can tell today, what he can or can not do six months from now. After all, your officers must exercise their best judgment in office, and if a man has so little regard for the sagacity of his spoken word, as to make rash promises, you couldn't very well have much confidence in his integrity. He might be just as rash and unreliable in administering his office, if elected, as he was in making promises.

You know me well. You have heard some good about me and some bad. Some of the things you have heard, both good and bad, are perhaps untrue, but I believe my public record entitles me to your confidence. I have not betrayed you heretofore, and I certainly do not intend to in any way betray your confidence in the future. If you nominate me to the office of County Judge, I shall give you the best service my experience and training enables me to do. I will not be able to do much by my own efforts, but by close co-operation with the other officers of the county, of the district and of the State, and with your continued help, we will be able to do many good things for the benefit of all the people, and not for the special benefit of just a few.

Sincerely,

HALL HOOD

## TO THE VOTERS OF CALLOWAY COUNTY

I would like to take this opportunity to thank my friends for making my announcement for County Clerk for me while I was in the army. Since then I have received my discharge and am able to make an active campaign.

Would also like to thank everyone who has supported me and helped me gain the nomination unopposed.

I intend to see and get acquainted with as many of the voters of Calloway County as possible before election day, but conditions being as they are, I will be unable to see you all, but I do want everyone to know I appreciate the honor and respect shown me by your support, and promise to make the best Clerk that I possibly can.

Respectfully,

Lester Nanney

### Kentucky Peaches for Home Canning

Kentucky has a good peach crop for home canning, says the State College of Agriculture and Home Economics. While some of the early varieties already are on the market, the main run will be from about July 20 to August 15.

Early peaches, especially small varieties, are often used for pickling or pickling. To reduce the amount of sugar in a favorite recipe, a third of the sugar called for may be substituted with white corn syrup, according to canning specialists at the college.

#### Spiced Peaches

6 pounds peaches (about 1 gal.)  
1-3 cups corn syrup  
2-3 cups sugar  
1 tablespoon whole cloves  
4 or 5 sticks cinnamon  
1 small piece ginger root

Make a syrup of the sugar, corn syrup and vinegar. Add the spices which have been tied in a bag and boil for 5 minutes. Drop a few of the peeled peaches at a time into the syrup and simmer until they can be pierced with a straw. Remove from the fire and let stand over night. Pack peaches into sterilized jars and cover with the syrup which has been boiled for about 10 minutes. Seal immediately. Process 5 minutes in the hot water bath.

trouble. But if the sender addresses it properly, the Navy will get it through. In the first place, there are at least 10 different types of craft—LSD (Landing Ship, Dock); LST (Landing Ship, Vehicle); LCI (Landing Craft, Infantry); LSM (Landing Ship, Medium); LCT (Landing Craft, Tank); LCS (Landing Craft, Support); and LCI (L) (Landing Craft, Infantry—for more personnel).

Each type may have hundreds of different units numbering from 1 to 600. LCI No. 442 may be operating in the Pacific, whereas LCT No. 442 may be in the Mediterranean. The letters "T" and "I" are often interchanged or are written so similarly that they are unreadable. If the "I" was mistaken for a "T", the letters would go far out of the way and the delay would easily be several weeks.

Some are still under the impression that the Navy has one vessel called LST and they address their mail to the USS LST, Fleet Post Office, San Francisco. This is just like addressing mail to Main Street, U.S.A.

In addressing Navy and Coast Guard personnel aboard ships, print, don't write, his full name, rank or rate; print the name of his ship, i.e., LST (Landing Ship, Tank) No. 442 (four four two); write out both designation and number. The last part of the address is either Fleet Post Office, San Francisco, or New York City. ### Workshop Group Visits Milk Plant

As a part of their study in sanitation, the teachers attending the "Health Workshop" at Murray State College made inspection trips to milk plants, condensereries, and restaurants.

Above are pictured several members of the group inspecting the Ryan Milk Company plant at Murray. Left to right, they are: Laura Belle Morris, Buchanan, Tenn.; Harry Barry, Hickman; Mrs. Harry Barry, Hickman; Katherine Solomon, Puryear, Tenn.; John Cavitt, Bob Hubbs, and Lexie Ward, employees of the milk plant; Ruth Butler, Paris, Tenn.; Matalou Mann, Cottage Grove, Tenn.

### Army to Employ Bulk of Sleepers

WASHINGTON, July 6.—Civilian Pullman service will be discontinued July 15 on all trips of 450 miles or less in order to make more cars available to move troops.

The order was drafted by the Office of Defense Transportation after consultations with military and railroad officials.

It was estimated the order result in the withdrawal of approximately 900 cars now in civilian service.

This will make approximately two-thirds of all Pullman cars available for the exclusive use of the military services. There are about 7,500 Pullmans.

trouble. But if the sender addresses it properly, the Navy will get it through. In the first place, there are at least 10 different types of craft—LSD (Landing Ship, Dock); LST (Landing Ship, Vehicle); LCI (Landing Craft, Infantry); LSM (Landing Ship, Medium); LCT (Landing Craft, Tank); LCS (Landing Craft, Support); and LCI (L) (Landing Craft, Infantry—for more personnel).

Each type may have hundreds of different units numbering from 1 to 600. LCI No. 442 may be operating in the Pacific, whereas LCT No. 442 may be in the Mediterranean. The letters "T" and "I" are often interchanged or are written so similarly that they are unreadable. If the "I" was mistaken for a "T", the letters would go far out of the way and the delay would easily be several weeks.

Some are still under the impression that the Navy has one vessel called LST and they address their mail to the USS LST, Fleet Post Office, San Francisco. This is just like addressing mail to Main Street, U.S.A.

### Vinson to Be Named Secretary Of The Treasury

WASHINGTON, July 6.—Tall, rugged Fred Moore Vinson of Kentucky, Director of War Mobilization, will be the next Secretary of the Treasury.

The White House made the announcement late Friday, abruptly ending a swirl of speculation over a successor to Henry Morgenthau, Jr., who resigned Thursday.

Vinson, 55, has had a richness of governmental experience few men never achieve. He has been an ace in the legislative, judicial and executive branches of Government, all within the space of a few years.

Now he is director of war mobilization and reconversion. As soon as it became known that he is the man who will take over Morgenthau's job as chief of the nation's financial functions, observers were quick to wonder whether he will take into the Treasury with him his present task of "war mobilizer."

**Authority On Taxes**  
The White House gave no indication as to this but some thought it was logical for the whole field of taxes, public debt management, and reconversion to be consolidated under the big, shaggy man whose rise from office to office has been so rapid.

Vinson is not merely familiar with taxes—he is known as an honest-to-goodness tax authority.

For years, as chairman of the tax subcommittee of the House Ways and Means Committee, he whipped together tax bills, and led the fight to put them into law.

In 1938 he was appointed by Roosevelt as an associate justice of the U. S. Court of Appeals, Dis-

### Pres. Truman May Dedicate Kentucky Dam

WASHINGTON, President Truman hopes to visit Kentucky some time in October, Rep. Gregory (D-Ky.) said recently.

Gregory saw the President Friday, and Mr. Truman told him, he said, that he hoped to get down to Kentucky to help dedicate the Kentucky Dam on the Tennessee river.

The dam, near the confluence of the Tennessee and Ohio, is the last TVA dam to be completed on the Tennessee.

Gregory told a reporter the date of the dedication would be left open so that it could be set to fit in with the President's plans.

Gregory also was high in his praise of Mr. Truman's latest cabinet appointment, Fred M. Vinson to be secretary of the Treasury.

Said Gregory of Vinson, also a Kentuckian:  
"The President couldn't have made a finer choice."

trict of Columbia. He served for five years and then was drafted into the executive branch in the mammoth assignment of holding the line against rising prices that threatened to twist the nation's economy into the spiral of inflation.

## National Farm Safety Week

National Farm Safety Week has been proclaimed by President Truman, and will be observed throughout the nation from July 22 to 28.

The two-fold aim of the week, inaugurated last year by the National Safety Council as part of the nation-wide accident prevention campaign, is (1) to educate farm dwellers to act safely 52 weeks of the year, and (2) to teach them to recognize, guard against and eliminate as many hazards as possible.

The need for such a week is underlined by the fact that on the average between 40 to 50 farm dwellers are killed by accidents each day, making an annual death toll of 15,000 to 17,000.

In view of the fact that more than 300 organizations and 50,000 individuals in 46 states took part in the observance of the first National Farm Safety Week, it is reasonable to assume that the activities of the week contributed to the reduction in the general accident toll in 1944.

Thus, wider observance this year is certainly to be recommended. But it should never be forgotten that accident prevention, in the final analysis, is the individual responsibility of each farm resident. Engaged in one of the nation's most important industries, the farmer must be his own safety engineer.

Nor will his safety job cease with the signing of the peace — universal safety can be achieved only by unremitting effort on the part of farm organizations, manufacturers of farm equipment and farm residents themselves.

## HEART THOUGHTS BY L. HART

By your deeds you shall be known, is a version of the opinion of some of our citizens. Complaints have been made concerning the weeds and an general neglect of vacant lots in Murray. They have been calling into this office and saying, "Don't you have some Heart Thoughts on the weeds?" Here I do have plenty of thoughts on the subject, and I wish I could do something about them, even the ones that grow next to my house. This is a matter of personal pride of the city government. Murray is a pretty town, and right now is looking mighty good to dozens of service men returning home daily. It would be a nice gesture for property owners to clean these lots as a contribution to the good looks of our town. A clean lot rises considerably in valuation, too.

The Ledger & Times' feathers drooped in shame Thursday after our attention was called to the fact that only two American flags were shown down town Wednesday, July the Fourth. The big flag in the court yard and the other in front of Corn-Austin Store. It is a shame that any Fourth of July should be unimpaired of the flag, but more shame to us that this one during war should be overlooked. That deserves a searching editorial about us all.

I enjoyed a visit in the home of Mr. and Mrs. T. A. Chambers, in Benton, Thursday. They have a lovely home and it is kept in perfect condition. Ted was not home, but he always refers to Gladys, his wife, as the Stella girl, and to me as the Penny girl. Then we tell him that Harris Grove folks that is his native town and Stella and Penny folks are all right. We do have a good time talking about all our good friends around in those communities. Ted and I got our first teaching experience there.

Do you remember your first date? Or how you felt when your child announced her first date? I remember my first date, and it was when I was 16 years old. Oh, I had school sweethearts and we exchanged notes on the sly, but not real dates until the buggy until I was sixteen. My little daughter who is in camp in North Carolina, wrote me last week that the boys from Camp Gordon, across the river from her camp, were visiting them the night of July the Fourth for a square dance. All of the girls have a date, and I have one, too. It was the message that she wrote me. It was all right but it sounded a little strange to me. She brought just eleven and one-half years old, but that is all in the fun of camping. I want to see her mighty bad.

Sickness in one's family is a terrible thing. I have been running in and out of the clinic this week and

Our Sunday dinner was supplemented by lovely tomatoes and peaches given to George Saturday by Ocus Puckett of Decker. I have never seen prettier red, or tasted nicer, flavored tomatoes. The peaches made a nice dessert.

Our garden looks like we are going to have to depend on our friends to furnish us with summer eats. We have tried again with planting since the colored man cut our tomatoes down. Charlie Denham gave us more plants and they look promising — maybe they will produce before frost. But the corn and beans we sowed in week before last, came up beautifully and we were so proud of the rows until last week and the blackbirds pulled everyone of them up. Now all we have is the tomato plants and a few cucumber vines.

Maggie is quite concerned about me riding in an airplane and said last week, "Miss Lochie, take the advice from somebody that loves you a whole lot and don't ever ride in an airplane anymore." She was thinking of that crash in Graves County last week when nine lives were lost. She had heard me talk about flying lessons and had heard that Neva Gray Langston and Oneida Ahart were learning to fly a plane and she thought I needed a lecture. I asked her if she ever heard of people getting killed in automobiles, of a horse running away with a buggy and hurting the riders; if she ever heard of accidents on the farm; if she ever heard of people getting killed by falling about the house, and the final question put her to thinking. I asked her if she knew that last year 17,000 people were killed in simple home accidents. She is still against riding in airplanes. In fact my whole family is opposed to flying in the sky. I can't get George to take his first ride. I believe that he and Maggie would be sold on air service if I could get them to take one trip up.

I went to church late Sunday morning. Just for fun, I drove around the square before going into my church. I passed the First Baptist Church, the Methodist, the Church of Christ, and then drove up to the Christian and sat, and thought of what I had just heard. Their morning worship songs — every song practically the same thought — all singing songs to the same God, all hoping for the same salvation — all in the same community — all in different churches — all friends.

Then Sunday night I saw Brother Mullins and told him that we had a new preacher at our church, and that we would have to be on his toes with his competition. He looked at me like he thought I was serious and said, "We preachers in competition." That was a pretty good answer, I quit.

Bun Crawford told me that he paid \$6.00 one day last week for a man to look tobacco. I told him next time he got behind with his hoeing that the Ledger & Times could afford to see for that kind of pay.

George and I attended the picnic in the City Park Friday evening when the final touches were put to the Health Workshop that has been conducted in Murray State College for the past five weeks. Seventy-two students and instructors were present to say goodbye and wish each other success in carrying home the lessons learned in the school that worked with the problems of malaria, tuberculosis, sanitation and nutrition.

We talked about the DDT that kills mosquitoes and flies. I asked why Murray and Calloway County had not been given this spray. I found that four counties had not received this protection against the pesky insect because the doctor in those counties have not reported active cases of malaria they treated. I haven't had malaria in the last 11 years, but I remember one miserable summer that I suffered from it.

Surveys in this school showed that those breeding places in Murray that carry the malaria-carrying mosquito. I can't call the name of the type but that doesn't matter. The thing that is important is that we must do something about the fact that there are mosquitoes in town. That news is not new, but it is news that the mosquitoes carry malaria. If they bite us we are subject to the disease.

Another important item we can be protected against mosquitoes by this new and powerful DDT spray if we report all cases of malaria to the county health unit. It strikes me as being peculiar that we have had no cases of the disease here and that other counties have been sprayed for protection and Calloway County right next to it, the Lake is unprotected. If my family were to have malaria, I would do all I could to get rid of it. I would call the health office and tell them. It is his duty to post signs and issue notices concerning contagious diseases. So, if you have malaria, please call the health office and in this way help us to get rid of the source of the disease.

Several from this community enjoyed an outing at the "Kentucky Lake" the 4th. Pfc. Charlie Brent Williams, son of Dewey Williams of Macedonia surprised his relatives the past week by arriving home from overseas.

Sgt. Clyde Mitchell is expected to arrive home from overseas very soon.

Leon Adams passed examinations for the Navy and has been assigned to Sampson, S. Y. for his boat training.

Melvin Dale, nephew of Mr. Bert Willis, arrived home from overseas the past week.

Mr. and Mrs. James Washart and Genevieve Washart arrived home the past week from Detroit to take their father, Noah Washart who remains ill with a stroke back to Detroit with them.

Mr. E. W. Mitchell, Mr. Monroe Mitchell and Miss Myrtle McClure were in Murray Friday.

Mrs. Mae McClure and Mrs. Effie Byers of Murray visited Mrs. Monroe Mitchell and Miss Anne Mitchell the past week.

Miss Myrtle Mitchell attended the wedding of L. R. C. Stewart and Miss Martha Jane Blalock in Murray — "Ole Maid".

## Letters To Editor

To the Editor of Ledger & Times:

The best answer to the "alleged reformer" is Murray and Calloway County's record on July 4th. Two big plumes and NOT an arrest in the county. I very much doubt if there is another county in the state that can show such a record.

It is like the managers of one of the entertainers who was here at Miller's Cross Road said. "We go into four or five states and Calloway County is the only place we go where there is no fighting or drinking."

So Murray and Calloway County's record is clean "NOTWITHSTANDING" and it is the best county in the state of Kentucky to live and raise a decent family.

A resident of Murray for 63 years.

Ed's Note—We agree with you, Mr. Holton. This is a fine place to live and raise our children. The law violators are so scarce here that we don't depend on news from that source to fill our columns. But we do have our columns filled with the good works of the citizens of this county. Thank you—L.H.

I am enclosing a check for the "Ledger and Times" for another year.

I enjoy the paper, and I think the news from the boys in the Service is worth more than its cost. We were especially thrilled this week when we read of the return of R. C. Stewart and others who were liberated from German prison camps.

We like California fine, and all of us are getting along well. I surely miss Murray—especially the College.

Sincere best regards to you and your family.

WRITES FROM GERMANY

J. O. Wimberly of 100 West Main received the following letter from his son, Pfc. J. Will Wimberly who is in Germany. He has been overseas since January. The letter is quoted:

Sunday Night  
June 3, 1945

Dear Daddy and all:

Hope this finds you all a.k. as for me I am alright. My arm is now better where I can write.

Well, Dad, since they have quit censoring our mail, I am going to tell you a few things I have seen since I saw you last. When I left Dover Christmas and got to Camp Meade, Md., January 1, I stayed there for four or five days and from there I went to Camp Myles Standish, Conn. and stayed there until 8th of January and then went to Boston, Mass., where we got on a boat.

I came across on the "Hbe De France" and was one of the largest ships used; there were 17,000 troops on it. It is just a floating city.

We landed in Glasgow, Scotland on the 15th of January and got on a train and went to Portland, England. From there we got on a boat and crossed the English Channel. We got out there in a storm and stayed on the channel for two days and nights. We landed in battle until the 11th of February on which date I broke my ankle. I was in a hospital for 3 weeks, and then came back on the front lines and remained here until April 16 without a rest. I was transferred to the Motor Pool as a mechanic and truck driver. For the past 3 weeks I have been on the road as a convoy mechanic, and that is why I have not written to you more than I have. We have been hauling prisoners of war back to Holland and other small countries where they lived before the war.

Daddy, the second night I was on the front lines another boy and myself were on guard in an old house about 200 or 300 yards from the main company. It was pitch dark and drizzling rain. At about 2 o'clock in the morning some Germans came up within about 20 feet of us before we heard them. We turned loose on them with two Browning Automatic rifles and got four of them. One was wounded and the other 3 were dead. It is hard on your nerves when they start pouring artillery in and all around you, and you don't know where the next one will hit. You think it might be at your feet or you don't know where.

Our division was highly praised by General Patton and General

## MRS. C. C. THOMPSON REQUESTS L. &amp; T.

A letter from Mrs. C. C. Thompson, wife of the former pastor of the First Christian Church here, came to our desk this week.

Mrs. Thompson requested the L. & T. be sent to her new address stating that she was keenly interested in the happenings in Murray for their work and associations had been very enjoyable here and would not soon be forgotten.

In speaking of her family, she said William would finish his basic training for Merchant Marines in San Mateo, Cal. in late August. Ensign Charles arrived in San Francisco on June 3 but sailed again the following week.

Margaret and Rev. Thompson were attending Church Conference.

She stated that the work of the new pastorate was being expanded and that an assistant pastor had been called.

Ed's Note: We appreciate your letter, Mrs. Thompson, and hope you enjoy the paper. You and your family have many friends in Murray who will continue to be interested in you—V. H.

## Grover Page DRAWS ON THE NEWS

GROVER PAGE, a COURIER-JOURNAL cartoonist for almost thirty years, is a visual editor who interprets the news with his brush and pen. The war, international politics with their vast implications, national, regional and local affairs... all are reflected in his work.

He calls himself a "short order" artist because he executes most of his sketches in about half an hour. However, they are preceded by endless thought, and quite often, conferences with Courier-Journal editors. His cartoons, built upon a solid foundation of accumulated fact, are usually taken directly from stories in the morning paper... which he digests with his breakfast. Besides his daily cartoon, he produces an stringent Sunday strip of the week's outstanding events.

Grover insists that a cartoonist never stops working except when he sleeps, as even his small, every-day experiences give him material to translate the world's most complicated situations. His own interests are varied... they have to be in his job! You can tell, for example, that he is an ardent fisherman from the angler influence in many of his drawings.

Grover came to The Courier-Journal from The Nashville Tennessean. Previously he studied art in Chicago, for since he was ten, he determined to cartoon. Even so, he started out as a mechanical engineer and his first cartoon was published at sixteen, when he was working on a water supply project in his home town of Gastonia, North Carolina.

Famous for his prize winning wood-cuts as well as cartoons, Grover has taken many of them from drawings he's made in rural Kentucky and Southern Indiana. His son, Staff Sgt. Grover Page, Jr., inherits his father's talent and is now a front-line sketcher with the 38th Division in the South Pacific.

The Pages live in Louisville, though their first seventeen years in this part of the country were spent in New Albany, Indiana. Grover plans to stay here the rest of his life, working at the same drawing board he has used for almost thirty years.

**BACK HOME**  
 MIAMI, FLA., July 7.—A few days ago Kentucky was a long, long way to go home—7,300 miles of ocean, land and space. The Kentucky fighting group were in far Casablanca, Africa. Today, they were that much nearer home. Rupert A. Parish, 26, Almo, Route 1, 85th Infantry Division, who has spent 18 months in Italy, is in this group.

**HOME AFTER SERVING OVERSEAS SINCE SEPT.**  
 Cpl. Walter Rudolph Howard, 28 years of age, the son of Mr. and Mrs. Ted Howard, Route 2, is a graduate of Lynn Grove High School and attended Draughan's Business School in Paducah. Before induction he was in the grocery business.

He entered the service in December of '41 and trained as a dental technician.

In September, '44, he left for overseas service with the Ninth Army and was in Germany on V-E Day.

Cpl. Howard married the former Miss Opal Blalock and at the present time is spending a furlough with his wife and parents.

He wears the Good Conduct and other medals.

**Their County Attorney**

In his radio speech on July 28, 1943, President Roosevelt said, "... The members of the armed forces have been compelled to make greater economic sacrifice and every other kind of sacrifice than the rest of us, and are entitled to definite action to help take care of their special problems."

Let us take that "definite action" requested by our late President by making every preparation, NOW for the assistance of our returning servicemen and the solution of their special problems.

Assure them of a County Attorney who is one of them, experienced and trained by the army for just such a task. **RE-ELECT LT. ALVIN H. KOPPERUD THEIR COUNTY ATTORNEY.**

William Guy McCuiston

Sgt. Wayne Flora

L. D. Flora

Mrs. Toy McCuiston of 400 North Seventh street, has two sons, Pvt. William Guy McCuiston and Sgt. L. D. Flora who have medical discharges, and another son, Sgt. Wayne Flora who is serving overseas.

William Guy McCuiston, Private, 21, attended Murray High School and worked in Detroit before entering service in March, 1943. A member of the Air Corps, he trained at Keesler Field, Miss., Camp Lee, Va., Harding Field, La. While serving in Louisiana he received a severe back injury and received a medical discharge in August, '43.

L. D. Flora (Sergeant), 26, attended Murray High School and worked for TVA before volunteering for service in July, 1941. He is married to the former Miss Rose Henry.

Mr. McCuiston is employed in defense work.

First Sgt. Wayne Flora, age 29, graduated from Murray High and worked at the Milk Plant before being drafted in July, 1941. He received training in Georgia, Florida, North Carolina, Mississippi, and Texas before going overseas.

He discharge in December, 1943. He is entitled to wear the Purple Heart, Invasion Ribbon, Good Conduct Ribbon, European, African, Middle-Eastern, and American Theatre Ribbons and three overseas bars.

**PFC. CHAS. JONES GETS AWARDS**

**WITH THE 106TH DIVISION IN GERMANY**—For superior performance of duty in the accomplishment of exceptionally difficult tasks during the period of December 16, 1944, to March 15, 1945, a citation, the Meritorious Service Plaque, was awarded to members of the Service Company, 24th Infantry Regiment. Included in this company was Pfc. Charles H. Jones, Murray, Ky., 1116 W. Main Street.

**WITH NINTH ARMY**

Pfc. F. H. Spiceland, Jr.

In periods of combat operation, it is the duty of the Service Company to supply the fighting men of its unit with food, clothing and ammunition. During the infamous counter-offensive the Germans threw against the Americans last December, the supply function of the company took a back seat and in the face of the emergency, Service Company took a spot in the line. Drivers, mechanics, cooks, clerks, and carpenters shouldered rifles and took to the foxholes to halt the Panzer smash in its tracks. To reward these men in part, for their efforts in stemming the crushing tide, more than 95 per cent of the company's officers and men were awarded the combat infantrymen's badge, and the company itself was cited as a combat infantry company, unusual for a unit of its type. This put the outfit among the few select companies entitled to fly streamers for two decorations from the gideon.

His wife, Mrs. Juanita Wynn Spiceland, and son, Jerry, reside in Cadiz. He has one brother in service, Ted Spiceland, with the Navy.

Corporal Spiceland is the son of Mr. and Mrs. F. H. Spiceland, Route 5.

**PFC. FRELON PIERCE**

Pfc. Frelon Pierce, son of Mr. and Mrs. Charley Pierce of Kirksey, arrived at the home of his parents on July 6.

Pfc. Pierce had been overseas five months and his parents had not heard from him for three months.

He saw active service and had many thrilling experiences. He will be home for 30 days before being reassigned.

**Woodmen Practice True Democracy**

In celebrating Independence Day this month, America voiced its praise of our fighting men for the Victory they have won in Europe and for their courage that assures final Victory in the Pacific.

Until that Victory is won, Woodmen will continue to buy War Bonds and generously support every war activity. Their Society now owns over 25 million dollars of War Bonds. Local Woodmen Camps and Woodmen Individually have similarly invested many millions more in defense of Freedom and Democracy.

Nothing less is to be expected of Woodmen who practice Fraternity, the highest form of Democracy. At every Camp meeting, they face the Flag and renew their pledge of allegiance. Woodmen's Fraternity in Action program also emphasizes sponsorship of many civic and patriotic activities as an obligation of citizenship.

This is the kind of Society in which you can be proud to belong. Ask the local Woodmen representative for full information about Woodmen insurance protection and the many other "protection plus" benefits you will enjoy as a member of the Woodmen Society.

**WHITE BROTHERS MEET IN GERMANY**

Cpl. Robert H. White and T-5 James R. White, sons of Mr. and Mrs. Otha White of Hazel, met in Ingolstadt, Germany, for the first time in almost two years.

Robert has been in service since December 1940 and has been overseas since January, 1944. He has served with the famous Fourth Infantry Division since its reorganization at Fort Benning, Ga., and is enroute to the States with sufficient points for a discharge. His wife resides with her parents at Hickory.

Ralph was stationed at Washington, D. C., and Camp Stewart, Ga., until his transfer to the Infantry in December of 1944. He received his infantry training at Camp Howze, Texas, and has served with the Ninth Division since being sent overseas. His Division has been put in occupational troops of Germany. His wife and two children reside with her parents at Puryear, Tenn.

**SGT. THOS. G. HOUSTON HEAVY CONSTRUCTION MACHINE OPERATOR WITH ENGINEERS IN MANILA**

WITH THE 86TH ENGINEER AVIATION BATTALION IN MANILA—Sgt. Thomas G. Houston, son of Mr. and Mrs. Elbert Houston of this city, is now serving as a heavy construction machine operator with the 86th Engineer Aviation Battalion in Manila.

Sgt. Houston took part in the initial landing made on the strategically important island of Mindoro, jumping off point for the invasion of Luzon, and followed within two hours of the assault wave. Through his efforts, he was in part responsible for the completion of the San Jose air strip two days ahead of its scheduled completion date.

As a result of this, our medium bombers were able to drive off a Japanese naval task force that attempted to shell and destroy our installations on the island.

Sgt. Houston was inducted in January of 1943 and was assigned to his present organization soon after being sent to the west coast. On April 22, 1944, he embarked for the South Pacific and has since seen service in New Guinea and on Leyte, Mindoro and Luzon in the Philippines. He is now authorized to wear, in addition to the Good Conduct Ribbon, the Asiatic-Pacific Ribbon with three battle stars, the Philippine Liberation Ribbon with one battle star and the Rifle Marksmanship Medal.

Sgt. Houston is a graduate of the Murray Training School. Prior to induction he was employed as an oiler with the T.V.A. He has one brother in the service, Sgt. Harold Houston, now serving with the Corps of Engineers on Guam.

PFC. Wm. J. COLBURN  
 B-29 GUNNERY GRADUATE  
 HARLINGEN ARMY AIR FIELD, TEXAS, July—Pfc. William J. Colburn, Murray, Ky., was one of 113 enlisted men and 50 officers in the second class to graduate recently from the B-29 gunnery training course at Harlingen Army Air Field Flexible Gunnery School.

Cpl. Billy Huie, son of Mr. and Mrs. Libburn Huie is stationed at one of the largest air bases located on Marianna Islands.

### Service Notes

**S-MSGT. W. L. EDWARDS**  
AWARDED BRONZE STAR  
POSTHUMOUSLY ON LUZON

WITH SIXTH INFANTRY DIVISION ON LUZON. Staff Sergeant William L. Edwards, son of Mrs. William L. Edwards, of New Concord, Ky., has been awarded the Bronze Star Medal posthumously by the commanding general of the 6th Infantry Division for heroism in action against the Japanese in the Cabaruan Hills, Luzon, P. I., on January 27.

Edwards braved Jap rifle and machine gun fire to make several trips to evacuate wounded men, thereby saving their lives. He was killed in a later action.

Edwards was in a front-line heavy weapons company of the 1st Infantry Regiment which gained fame when it played a major part in clearing the Japs from Bataan Peninsula.

Sgt. Braxton Sanford, who has been in Europe three years in the construction crew that built barracks, spent last week end in Murray the guest of Mr. and Mrs. Noel Melugin. Sgt. Sanford attended Murray State College and played center on the football team. He told friends here that he would finish his college education in Murray State when the war is over.

### McCLURE BROTHERS OVERSEA

Cpl. Edward McClure and his brother, Cpl. Charles McClure, sons of Mr. and Mrs. Crawford McClure, are in the Army and located in Europe. Cpl. Edward has been with the Ninth Army, Second Armored Division. Cpl. Charles is with the Third Army, Tank Battalion. They were both drafted from Detroit March 14, 1944. The brothers have been pretty close together all during their military training—having taken their basic training in the same camps.

Cpl. Edward McClure has three citations and the Bronze star.

### MAJOR H. B. SCOTT PROMOTED

Major H. B. Scott, son of the late Henry Scott and Mrs. Scott, has recently been promoted to Lt. Col. according to information received at this office.

Lt. Col. Scott graduated from Murray High School and Tulane University. He has been with the armed forces for many months and for some time served on the field, but for the past two years has been in the Office of War Information in Washington, D. C.

Lt. Col. Scott has many friends in this city who will be pleased to know of his promotion.

Mrs. E. S. Diuguid Sr. is an aunt of Lt. Col. Scott.

### Jones Brothers Meet In Germany

Cpl. Cantrell Jones

Pvt. T. P. Jones

Cpl. Cantrell Jones and Pvt. T. P. Jones, sons of Mr. and Mrs. Arlie Jones, recently met somewhere in Germany. A letter which tells of their meeting follows:

June 7, 1945

Dear Mother and all:

Mother I'll drop you a line this morning as I have something to write about. Guess who I have here with me? What a happy day. On June 6 at about 12 o'clock Cantrell came walking in on me.

I was so shocked I couldn't say a word or a long time. We (Cantrell, Homer B. Williams and myself) are having lots of fun. We are going out today and take pictures and I'll be sending some home soon.

You will never know how glad we were to see each other. I can't put it in writing but I could tell you if I were there and I hope that will not be too long.

Well, Mom, Cantrell is the same as ever. He really looks well. We set up this morning until 1 o'clock. He has three days to stay with me.

### RECEIVED COMMISSION AS ENSIGN IN CONNECTICUT

Ens. Pat D. Blalock recently received his commission as ensign from the Maritime Service Officers' School, New London, Conn. He is the son of Mrs. Essie Blalock.

me. We sure are doing some tall talking. He is located about 80 miles away. I don't know whether it will be possible for me to go back with him but I think of the boys I met on this boat.

I can't write much but just wanted to let you know we got to see each other. So you tell all the kids.

I will be writing more later. So goodbye and best wishes.

Your sons

Pete and Cantrell

Cpl. Cantrell Jones was inducted August 20, 1942. He worked with the TVA and farmed before entering service. On December 22, 1943, he sailed for overseas and is attached to the 35th Division of the Ninth Army. He wears four campaign stars.

Pvt. T. P. Jones was inducted in July, 1941, and trained for one year in the states. He left for overseas service in July, 1942. He has served in North Africa, Sicily, Italy, France, and is with the Seventh Army in Germany. He wears seven battle stars.

### An Australian Writes About Charles McDaniel

The following letter came to this office this week and contains news about our boys, particularly about Charles McDaniel, F 1-c, and son of Mrs. Treva Redden of Dexter.

We quote:

Sig. Moffatt, P. S. 218 Aust. Fld. Regt. Signal Section, A. I. F. Aust.

Dear Sir:

I am writing this letter to you from our new Australian front on Borneo—I don't know if you ever hear much of the Australians' doings in this war but any way that's where I am now. Incidentally this paper is a hundred and fifty million.

## Can Peaches With Little Sugar

Kentucky homemakers, anxious to help conserve a share of this year's record-shattering southern peach crop, need not be dismayed by the current "short" supply of canning sugar. Gavin B. Dudley, state director of the War Food Administration's Office of Supply, said this week.

## That Nagging Backache

May Warn of Disordered Kidney Action  
Modern life with its hurry and worry, irregular habits, improper eating and drinking—the risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become overtaxed and fail to filter excess and other poisons from the life-giving blood.

## DOAN'S PILLS

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

of July this year," he said, "and it is imperative that homemakers act swiftly to prevent loss of this valuable fruit-food."

Dudley pointed out that "Though normal canning procedure calls for a pound of sugar for each four quarts of fruit, housewives should give thought to alternative sugaring methods—such as the use of corn syrup and the juice of the peaches."

Dudley offered three canning methods which require varying amounts of sugar:  
1. Peel peaches, cut in quarters or halves, and heat in thin hot syrup—made with one-cup of sugar and three cups of water. Pack in jars, cover with hot liquid and seal, and process for 15 to 20 minutes in hot water bath.

2. Peel peaches, cut in quarters or halves, and heat in a thin syrup made by using one cup of corn syrup, two cups of sugar and nine cups of water. Pack in jars, seal, and process for 15 to 20 minutes in hot water bath. This will take care of about 12 quarts of peaches.

3. Peel ripe peaches—cut in quarters or halves, and pack cold in jars or cans. Add two tablespoons of sugar to each quart. Set jars in pot of hot water up to the shoulder of the jar, or within one and one-half inch of top of cans. Heat until peaches have settled and contents of jar have reached the simmering stage, or approximately 180 degrees Fahrenheit. Any jars that have shrunk until they are no longer full should be filled with peaches from one of the other hot jars, seal and process in the hot water bath for 15 to 20 minutes. This method uses little sugar, and allows for many quarts.

It was pointed out that while sugar helps canned peaches hold their shape, color and flavor, it is not necessary to keep the fruit from spoiling. If sugar runs short, peaches may be put up without sugar and sweetened to taste when served. They should be processed the same as sweetened peaches.  
Dudley warned that while rationing regulations are designed to permit a maximum of 15 pounds of canning sugar per person, that is no guarantee that supplies will permit such allowance. He urged that the utmost economy be exercised in all canning operations, so that available sugar supplies may do the maximum job.

## How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:  
1. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build restfulness for the "time" to come.  
2. Started 3 days before the cramp-like agony and nervous strain of functional periodic distress, it should help relieve pain due to purely functional periodic causes. Try Cardui. If it helps, you'll be glad you did.

## Murray Had A Mean Fire

It affected more people than any fire in Murray's existence. Quick work by bystanders saved many garments and household linens, which cannot be easily replaced.

The poorest crop of wheat in the history of our county just harvested, and late and short acreage of corn, makes grain shortage very acute. Plenty of hay if it can be saved will be better than snow-balls to carry cattle through. The most important thing now is to prepare for winter cover crop for fall and spring grazing. The old saying worked — short hickorynut crop, short grain crop following.

My attention is called to cards being circulated as a candidate for Representative. Some friends or friends take the interest in me which I appreciate; however, the text is so broad I fear to be able to back it up, however, I will do my best if it is the will of the majority so elects.

One thing left out of the card is the fact that I was a member of the Efficiency Commission appointed by Governor Edward Morrow, composed of two Republicans and two Democrats. We served without pay for two years, and went into every department of State Government. There I got my first start in activities of government, and saw the need of a new constitution because by amendments it was impossible to bring the 50-year old document to a present-day workable governmental foundation, that would take care of the many activities affecting local and rural management of our government.

Today we have many problems, of old age assistance, handicapped people caused by sickness and epidemics, a better support for schools and better rural roads that students may be transported to better schools, and better pay for teachers or we will have fewer teachers, because of better pay in other fields of endeavor, not forgetting the ability of taxpayers to pay.

I have supported both county papers with paid ads each week, that they might be able to carry the messages from home to service men all over the earth, that friends at home might hear from those away fighting our battles; also helped to organize the Service Men's Guard in the Murray Democrat; and other favors to them that they might get a start. There are 56 members who contribute monthly; that has been a very substantial aid to it.

I try not to show preference; as both papers are doing a good job, and could not exist without the support of advertisers and so a mere editor is not all there is to a newspaper, and the supporting public is entitled to less backbiting and snapping.

I do not boast of my qualifications, only wishing to abide by the will of the "sovereign" voters. If elected I will enter upon the tremendous task of getting reasonable recognition from our Frankfort government.

P. S.—Do not neglect to prepare for winter appearance; as you find what you can use.

Come in to see us every time you are in town.

## ARE YOU GOING TO DO IT THE HARD OR EASY WAY?

That swell plan you've got for later on can be realized much more easily—if you keep your head now!

**Now**—is the time to sock your money away in the best investment in the world, and at the same time give your country the help it's asking for, with War Bonds.

**Now**—goods are scarce and prices high. You'll get a good dollar's worth if you don't spend your dollar now—if you hold on to those War Bonds till they mature.

**Now**—when you're maybe making more money than

you used to and it's not so hard to keep on buying that War Bond every week or every month—is the time to insure your future plans.

You may be able to fulfill them the hard way later on—by scraping up the money somehow. And again—you may not.

If you're wise—you'll do it the easy way—with War Bonds now to have and to hold! There's no better way to help your country—or yourself!
